🎓 EDUCATION

2021 – 2026
Rize, Turkey

Recep Tayyip Erdogan University

Although the computer engineering department at Recep Tayyip Erdoğan University in Rize is a new department, it is a developing department.

📁 PROJECTS

2023

Earthquake Road Detection Drone

The-Rone

Within the scope of this project, which we are trying to do as "The-rone" team, drones take off autonomously for the detection of roads in earthquakes and report the roads that can be travelled to the authorities on the map.

With the project, we were accepted to the "On Kulucka" programme established by our school together with the "Teknopark" and we participated in the technofest competition with our project.

09/2022 – 06/2023

Occupational Health And Safety Lift

Within the scope of the project, we planned it as a project to protect worker health for elevators in factories and participated in TUBITAK and TEKNOFEST competitions and we could not finish this project because we turned to our project that we trusted more.
